

Tailgate Hinge Repair Kit

For All 1963-1991 Full Size Jeeps

Removal of Factory Pins and Bushings

1. Refer to factory manual for how to remove the tailgate from the vehicle (use caution with the torsion bars)
2. Remove the tailgate check spring
3. Carefully grind off the pinned end of the pin and press / tap it out
4. Remove old worn-out bushings

Assembly of New Pins and Bushings

1. Position the new bushings into the holes of the body side hinge
2. Apply an approved lubricant on the pin and bushings (White lithium grease works well)
3. Place hinge halves in together and slide the new pins through the new bushings
4. Re-attach the tailgate in the same manner in which it was removed. Refer to the factory manual if necessary

NOTE: Please read through all instructions prior to removing or installing any part. If you do not feel comfortable with the instructions or in your ability to install or modify your vehicle, please take to a reputable mechanic to have them perform the installation. BJ's Off-Road can not and will not determine your ability to install this kit, and the extent of our warranty and liability only cover the components of this kit, and do not cover improper installation, abuse, neglect, labor rates, etc. Contact us with any questions prior to installation.
